

Information Security Policy

1st, Oct, 2020
Goal connect Co.,Ltd.
CEO Akira Oshita

Our, Goal connect Co.,Ltd., regards the below as important mission.

Delivering expectations from all stakeholders and contributing to society thru system developments, operations, maintenance and consulting service on Information Technology.

We also recognize that protecting those information resources from customers in our business activities is the most important task so that we can deliver expectations from all stakeholder.

Therefore, we sincerely announce that we develop the policy on information security and build up / operate ISMS (Information Security Management System) based on that and consult on continuous KAIZEN at full power while grasping the environment change around us.

Furthermore, we set up our goal on security below, conduct all deals for certain to achieve the goal.

Adherence/ esteem on contracts from customers and requirements related legal regulation.

- ✓ Avoiding incident on information security before happens.
- ✓ Minimizing influences in case of the incident.
